

## Response to our parent questionnaire November 2025

Thank you to all the families who responded to our questionnaire. We had a 46.6% response.

All the responses were overwhelmingly positive which makes us feel that we are for the most part getting things right. Below are the results, some feedback regarding school communication which was the main issue being brought to our attention and some of the lovely comments from our families.

**My child has settled well in to their new class.** 93% agree and 4% neither agree or disagree and 1% disagree.

**My child enjoys coming to school.** 91% agree, 6% neither agree or disagree and 3% disagree.

**My child is making good progress.** 96% agree and 1% neither agree or disagree and 3% disagree.

**My child has made friends.** 94% agree and 6% neither agree or disagree.

**Communication with the class teacher is good.** 96% agree, 4% neither agree or disagree.

There was no overall area where a large percentage of parents and families were finding problems or difficulties. We are very pleased that 96% find it easy to communicate with staff as last time we asked you it was only 81%. We therefore put some systems in place to try and improve this and clearly this is working.

### Other Concerns

There was a small number of parents and families who shared some concerns and worries with us that were just pertinent to their families. We have spoken on a personal level to these families to try and resolve any worries, we hope that this has helped. However, as always if you do have any other concerns, please do pop into school and speak to us. We are here to help, understand and support wherever we are able to.

**Thank you for the lovely comments below. It really does give all the staff a proud moment knowing what they do counts.**

Staff are lovely and put a great effort on knowing the children and understanding their needs.
